Dear Parent / Carer

Re: Notice from Surrey County Council

As you will be fully aware, the internet has become a powerful tool to connect and share ideas and opinions. In recent years, social media, such as Facebook, has grown in popularity and many people use it to communicate with family, friends and others.

The vast majority of people use social media showing respect in their communication with others and this is something that we must encourage, to show our children that we are positive 'digital role models'. However, like other aspects of society, there are people who disregard the rules set and use social media inappropriately.

As a school, we encourage parents to support us with the education and wellbeing of their children. If at any time parents feel that they have issues regarding their child's education or wellbeing, I would ask that they make an appointment with me. As a community, we should disregard the use of social media to criticise and make unsubstantiated comments about the school or any members of staff. Thank you for your continued support.

Yours sincerely

Mrs H. Wall
Acting Head of School
